

College of Engineering

Florida A&M University and Florida State University

Goal:
To provide a challenging and educational experience for students that will enable them to become effective engineering professionals

5

Departments

chemical & biomedical - civil & environmental
electrical & computer - industrial & manufacturing
mechanical

17

Student
Organizations

2166

Undergraduate
students in 2010

1982

FAMU-FSU Institute for
Engineering Approved

5,000

degrees have been
awarded in the past
two decades

Undergraduate
research
opportunities
for students

200,000

square feet
of *state-of-the-art* facilities at
the Innovation Park campus

Over **\$125** million of research
is being conducted under single and
multiyear contracts
